Hiring Manager
Amazon Web Services (AWS) Canada, Inc.
Toronto, ON

Re: Solutions Architect Intern (Job ID: 2858482)

Dear Hiring Manager,

I am excited to apply for the Solutions Architect Intern position at AWS, as advertised on the amazon career's website. Currently pursuing a graduate certificate in Cloud Computing Technologies at George Brown College, I have developed expertise in AWS services, cloud architecture principles, and best practices. My coursework includes AWS Solutions Architect and AWS Cloud Practitioner certifications, complemented by hands-on projects such as deploying secure server environments and implementing identity management systems. These experiences directly align with AWS's mission of delivering scalable and secure cloud solutions.

Transitioning from a mechanical engineering career to IT has allowed me to combine my analytical mindset and problem-solving skills with the technical capabilities needed in cloud computing. In my previous role at Gohil Fabrication, I led process optimization initiatives that improved operational efficiency and quality. This experience honed my ability to manage complex technical challenges, communicate effectively with diverse stakeholders, and drive innovation—skills that will support AWS customers in building tailored cloud solutions.

Additionally, I thrive in team-oriented environments. As a Robotics Event Team Member at Gujarat Technological University, I enhanced engagement through social media campaigns and managed participant registration for over 100 attendees. This role highlights my ability to collaborate, communicate, and adapt in dynamic settings—critical attributes for engaging AWS customers effectively.

I am fully available for the 12-week internship in Toronto from May 12th to August 4th, 2025. I am eager to contribute my technical expertise, problem-solving abilities, and customer-first mindset to AWS's Cloud Support team. Thank you for considering my application. I would welcome the opportunity to discuss how my qualifications align with your needs. Please feel free to contact me at monilparmar27@gmail.com or +1 519-575-8490. Thank you again for your time and consideration.

Respectfully yours,
Monil Pravinbhai Parmar
